My dearest Brother

As I cannot have the pleasure to unite my warm Congratulations on the 12 with those of my Sisters, I must have recourse to my pen to express the sincere wishes I form for the health and happiness of a Brother I am most dearly attached to. — I shall think much of Wincobor on that day, and not fail to offer up my Prayers to the Almighty that he may bless you, granting you every earthly comfort and happiness for a long series of succeeding Years. — I should be

delighted could the Peace be signed on
the 12th my dear Brother as I should look
upon this as a reward for your wise
Conduct in having sought to reestablish
the quiet of Europe.

The King desires me to present his best
Compliments and Congratulations on your
Birth-day,

I will now take up no more of your
time and remain with sincere Affection
and love My dearest Brother

Your most Affectionate Sister
and sincere Friend

Charlotte.
