Lombow August 12, 1819

My dearest Brother.

This day being too interesting
to all your family for any of us to keep
it over an silence, I hope you will allow
me to unite with the rest in offering you
my Compliments, and be convinced of the
sincerity of the wishes I form for your
health happiness and prosperity during
this and many succeeding years.

I hope on Monday to have the comfort
of seeing William and the Dutches of
Clarence at Wintebow; after having been
so many years separated from my dear
Brother I shall be very happy to spend

21827

a few days with him

I hope that business will soon allow of
your going to Brighton and that by your
energy you will soon put an end to the
democratical Meetings which must make
every British Heart blush.

I will now take my mind remaining
with invariable Attachment

My dear Brother

Most Affectionate Sister

Charlotte
