

Queen Dowager of Württemberg to Duke of Cambridge

51820

Lonsbury March 24, 1824

My dearest Adolphus,

I am grieved that my indisposition
has prevented my sending off as I had intended my
Present for our beloved George's Birthday, but I trust
you will forget this apparent neglect as certainly
nothing but illness could have put a stop to sending
my humble little offering to the beloved Angel.

I hope that on Thursday the Box will go off
and that you will my dearest Brother kindly
give it to George in my name, it consists of a
Paper Seal which I hope he will have cut when
he is old enough to have our Boxes as well as his
Chest and Armoire, and of course his Larige Toke and

05810
Spoon are not forgotten, and when he has two dozen of
these I shall by degrees find him two dozen silver
ones. I wish I could do more but you are always
so good as to take the will for the deed, as you
know that I can only go on from prospects
that I may be able to execute all my plans.

God Almighty bless your dear Children and grant
they may ever be a source of happiness to you
and their dear Mother to whom I beg my best
Love. — My Horrids are still much swollen and
the Physicians only allow me to sit up a few
Hours in the Evening. God bless you and
believe me ever with sincere Affection

My dearest Adolphus
Your Affectionate Sister
