My dearest Adolphus,

Though still confined to my  
Chaise Longue I cannot delay one moment offering  
you my warm Congratulations on our beloved Georges  
Birthday and expressing my former Prayers and  
wishes that the Almighty may watch over this  
dear Child and grant him every earthly blessing.  
I wish that I could spend the day with you,  
and enjoy the sweet Boy's pleasure at receiving  
his various pretty presents, and partake in your  
happiness at seeing him grown such a fine  
strong Child. — I beg my love to the  
Duchess and both your Angels. — I have  
just had Letters from England, the King
