My dear brother

They begining to talk of a Princess
of Savoye for the Emperor, the Prince
that is come back from Potsdam has left
the King in perfect health, he has been
so over gracious that he has been from
morning to night with my Husband, he
wish'd that his neice should be E, but
doubt that ever it was the intention,
your good wishes will go a great way to
wards my recovery & I have begid of the P.
that if it's a son the P. should be godfather
that he may be call'd George, I hope you
wont disaprove of it, Lord Oxford is really
is a good creature & his brother is so attach'd
to you that I quite like him, I ever
am my dearest brother your most dutifull
subject & sister augusta
