Will forgive the liberty I take in sending you
Nelson picture on a Cup of our Manufactures

stand offering it to you, we have ended this year
so gloriously that I trust in God that we shall
finish this business to the satisfaction of all
Europe, the King of Prussia comes here at the
end of May, in his way to Cleve, but I still hope
that M^r Grenville will find some way or other
to make him change his plan, Vienna keeps
me in a continual fever, for I do not know what
to think, may every wish you form succeed
in the ardent desire of dear brother
