

Duchess of Brunswick

52191 Brunswick May 29th 1799

My dearest brother

will with his usual goodness receive my most sincere good wishes for the fourth of June. The friendship & kindness with which you honor me, I feel with a grateful heart, and I often regret the little chance there is, of my ever having the happiness of seeing you again, but my sincere affection & best wishes ever attend my best of brothers, whose goodness I have experienced for so many years. I hope your Duty & goodness will bring a Blessing on poor Old England and avert the Dangers which conspirators contrive. I shudder'd when I read the Report of the Secret Committee. It is the Almighty who protects us and I trust will continue to confound the vile & wicked Machinations

Duchess of Brunswick

of the french, who like the Sivel, have
Empires in every Part of the world to des-
troy governments, to undermine Principles &
annihilate Religion. yesterday was a fati-
guing day for me, the Queen of Prussia is grown
very thin, she must really be more prudent
& not dance when she is with child, it is not
possible not to love her, she is so natural &
so mild, the King could never find such
another, I honor her for her compliance, she
is handsome beyond expression, I believe he
is not pleased at the Successes of the two Em-
perours, he will see what he has done at
the Peace. the Emperour has more faith than
Charles the fifth, & Prussia will be cut up, they
have at Berlin very empty Brains, I long
to hear that our fleet has demolished them
with this Christian wish I subscribe myself
my dearest Brother yours most attached

devoted humble Servant
and Subject

Augusta

52192

Duchess of Brunswick

29th May 1799
