52215 Brunswick Dec^r 17th 1802

My dearest brother

Will allow me to congratulate you on the providential detection of the horrid plot which was to have deprived us of our beloved King, and of all his family, you can easily conceive my dearest brother, what my feelings are on this occasion, and we certainly owe the preservation of you to the Almighty who has constantly watched over you during the many trials you have had to go through during your reign, not a creature has wrote me a word of all this par management, I know nothing but by the newspapers, and the wind is contrary, and may remain so at this time of the year a long time, suspense is a state of Purgatory, which I must bear with patience may the result of this event turn out to our wishes, you who so often have heard my

expressions of affection and gratitude I need
only repeat, they will ever remain being my
dearest brother with the utmost attachment

your most obliged and most
faithfull Subject

Augusta
