My dearest brother

Our Nephew has been vastly approved of at Berlin, & I take this opportunity of begging a favour of you which is to let my letters go in one of your ministers packets, for it would be cruel if I should be debar'd the satisfaction of hearing from my family I have but four real friends in England. so that my letters cannot take up much place, as long as possible I shall send the same usual but that cannot last long, I am very low, god bless the Duke of Cambridge, he is never out of my thoughts, nor you, there are moments where all our Philosophy is of nouse nature will have <sup>it</sup> right. I ever am my dearest brother

your most attached  
humble servant & subject

Augusta.
