My dearest brother

52264

How kind & good you are to me, to send me
Count Munster yesterday to know if it was
with my approbation that my grand children
were to come here. I will tell you the plain
truth, its the mode that I disapprove of as four
Women for these two boys is superficial & very ex-
pensive. but I have long wish'd to have them here
as the only sure place for them. William is very
sensible of your affection & condescension to him
I will only add that I am with truth my dearest

brother your devoted humble
