St James's Square June 28th

1753

Dear Sir Sir Geo: Lee

I heartily thank you for your obliging Letter which I received yesterday. it gave me a sincere pleasure to be informed under your own hand that you are got pretty well again, and are able to go abroad, I heartily wish you a speedy & perfect recovery, & think you act very wisely, in not venturing to London till you are quite well & strong again.

I am very sorry to hear your Difficultys at your Borough continue, I am perswaded they a good deal arise from the noble Lord your Antagonist having made an absolute Tender of the Borough, which prevents any Accommodation being made by those, who I fancy could bring it about, I wish it was in my Power to do you real Service, I would do it most sincerely, but past experience convinces me it is not.

I shall wait on Her Royal Highness tomorrow at Kew, & will make your Compliments to her, I am sure she will be glad to hear you are so well recovered, for she always expresses a great Regard for you.

I am got perfectly well in health, but

still continue extremely lame, & weak in my
feet, I believe I must make a visit to Bath
in September, to try if I can possibly avoid being
confined all next winter, as I was the last, I
go out almost every day, and spent the Whitsun
Holidays in Buckinghamshire, but I don't
find that will do.

I beg you will do me the Justice to believe,
that I am with great truth & esteem

Dear Sir

Yours most faithful &
Obliged humble servant
Geo Lee
