By every enquiry I have made of Lord Amhurst & ever
since Government being in the smallest degree concerned in
the transaction of the East India Company with Col. Cochrane
I therefore certainly look on the Granting of pay & wanted
expensures of Public Money, and think the Officers
ought to be at best treated as the Corsican ones were
who served at Minorca; but if Ministry wish to grant
Cochranes Corps what certainly they have not deserved
agree with Lord North The Corsican Officers must
have as good terms; Therefore hope Lord North will
consult the Treasury before he takes any step agreeable
to General Conway's letter
