Lord Sydney is to acquaint both the Chevalier d'Alvensleben and Baron Keyll that I will receive them tomorrow a little after one at the Queen's Lodge; both are sent for private not public Audiences, therefore according to ancient Usage they are right in having asked them through the Secretary of State but he ought not to be put thereon on the Occasion yet I cannot but look on it as an attention which must also flatter them if Lord Sydney will come also and be the person to notify their being come, and he may have some points of business to clear off which may without inconvenience then be settled.

P.S.

The fate of the Pension Bill is very fortunate though not in so handsome a manner as would have been wished for the Lord Lieutenant's letter seems naturally to account for it. His having openly broken with the D. of Lincoln and Mr. Fox only is very proper, indeed my mind was inclined to meet difficulties at first than by palliatives rather nourishing them to break out with great force.

I am most respectfully to acknowledge the receipt of your Majesty's Commands from Windsor of yesterday's date — As Lady Pembroke was not at home in Hill Street when I called last night, I had the honor to leave your Majesty's Letter at Whitehall

The inclosed from Lord Herbert I humbly beg leave to submit to your Majesty's perusal; I received it this morning, and as it is ⁱⁿ consequence of what I had the honor to signify to him last night, in obedience to your Majesty's Commands, I presumed to think it would more fully convey his Lordship's sentiments, than any attempt of mine for the purpose — Lord Herbert having likewise given an account in the Letter of his Injust Sea, I do not presume to trouble your Majesty further upon the occasion

Enclosure

Mill St. April. 10. 89.

Dear Goddard

I have been thinking a good deal of the Subject of our Conversation last Night, and I cannot help feeling extremely sorry, that the Refusal should have been given in Officially, thoroughly convinced as I am, that Taylor has not the smallest Idea of any Impropriety in the Step he has taken; indeed we cannot suppose any Man so absurd, as knowingly to be guilty of an Act, endangering his own Interest, at the very moment he is consulting it. His having already two Children, who, I believe, have nothing to depend upon, but what may arise from his Commissions, cannot but make some Impression upon me, & if this Business is finally settled, will it, do you think, be possible to procure for him in Lord Pembroke's Name a Deputy Government, which strange to tell, he prefers to a Lt. Colonelcy, & as you know, has declared, he would be satisfied with. If this very absurd Transaction should put it out of Lord B's power to do any thing for him, it will really be more or less, ruin to his Children, who would indeed suffer for their Father's ignorant Absurdity; I do not however mean to infer, that in my Opinion, Lord B. is, after this, absolutely bound to do any thing for him. With respect to His Majesty's gracious proposal of appointing me to the Third, I

cannot say, I wish such an Appointment to take place at
this Moment, conceiving that it would be improper in me to
forward any thing of the kind, before I had acquainted L. G.
with what has happened, because I should not like ever to
have him say, that I had, by leaving the L. D. J. abruptly,
put it out of his power to serve Major Taylor; the fact is
that my leaving the Regt. could not possibly have that effect,
but nevertheless hereafter it might be said. Another reason for
my not wishing this Appointment to take place immediately, is
that it might be made to appear, as if Major Taylor really had
by some means been injured & that I had had a hand in it,
& wished for that reason to shift myself out of his Regt. It
certainly is far from unlikely, but that He & I may sometimes
differ (indeed we never did coincide much) which some time he
will probably make me desirous of exchanging, but really, I
cannot but still hope for his sake, that if the Regt., & of
every body, that this Affair may still be settled, particularly
as by Taylor's last Letters, it appears to me that his Eyes are
opening in some measure. - My little Boy is, I flatter my
self, mending; He breathes almost as well as when in perfect health
& had had a good deal of quiet sleep. -

Very sincerely Yours

Herbert

P.S. I wish you would let me see you, as I want much to shew you a case

Lord Sydney has judged very properly in circulating a copy of the letter received Yesterday from the Lord Lieutenant of Ireland on the failure of the Lord Chancellor of Ireland, whose demise seems more rapidly expected by the Castle than by his immediate Relations. The question of a Successor seems to require more deliberation than this sudden event would allow if the natural mode of a Commission did not occur. Therefore rather expect that on consideration that will be judged the best present mode to be adopted.
