We continue to be of opinion, that
His Majesty is sufficiently recovered to be
capable of exercising his high functions;
But there are still certain symptoms
remaining, which make us apprehensive
of a relapse, unless His Majesty will
strictly and uniformly exert himself to
correct those ideas which occasionally
show themselves in his less guarded moments.
For we can not conscientiously pronounce
His Majesty to be out of danger of a relapse,

till those symptoms no longer exist.

We therefore think it our duty to express our opinion of the absolute necessity of His Majesty still conforming to medical guidance, till we can have the satisfaction of declaring that the recovery is perfect.

His Majesty is in our Judgement perfectly competent to transact important business at any Time, when it shall be brought before him. And we are of Opinion that any Deviations from his natural manner, which occasionally shew themselves, are such, as are usual in the Decline of similar Disorders, and such, as we have Reason to think have occurred in his Majesty after his former Illnesses, and are in fact wearing off. Some medical

Abundance is still expedient, both as a
security against a Relapse, and as a
Means to perfect his Recovery.

We are of opinion that His Majesty is well:
 but, in order to guard against a Relapse, we
 think that the Plan His Majesty is now pursuing
 by our Advice should not be too hastily discon-
 tinued.

" We attest that the Answers to the Questions submitted

" to add to the Answer given to the 3^d Question

" That to the best of our recollection, We answered
" that the Controvert was no other than such as might
" arise in His Majesty from the Knowledge of the Servants

" The Physicians that there had been no occasion for
" their interference for some time past

of the 23rd of June which in the opinion of The
Physicians, ought not to be too hastily discontinued

" By the Word Plan is meant that appropriate
