

MED/17/2/153

My dear Brother
I am sorry to say this
has been full as hot a day as yesterday
though it began rather some
quiescently, but soon after he was up
he got as very irascible as usual,
furious & outrageous that nothing
became necessary by 10 o'clock
& a man was taken off again
till he went to bed at 12 o'clock
when he complained of being
much fatigued. He refused all
engagement from breakfast
till after he was in bed to
night when he had had
& nothing & more tea. The
convulsion has been very
hot at times & he is
wilder than ever —

Our Sophia has been all
all day with one of her stomach

By making that point clear & attention
she is in some degree relieved
thus enquiring, but it requires
some time before we can
an attack can be got the better
of—

Yours truly
Mary
