

MSO/17/4/30

My dearest Brother

Nothing has passed a
my god day my great and
my comfort I think Charlotte
looks better to day though
the cold is still very heavy
upon her, she complains of
pains in her side and
feeling weak - She does
not seem quite comfortable
then last two days in her
Boots which has obliged
me to take care of herself

I hope you are quite well &
enjoying yourself - My Aunt
arrived today & is full of
nothing but all your
kindness to her at Brighton
& even talks of nothing else
but the delightful parties
at your house - She pleases
me much by opening
me you was so good as
to say you would I had
been of the party - I am

quite certain he had
would have enjoyed more
than I should have done

God Bless you both

Meo/17/4/31

My dearest Brother Jim has been a little
sore throat yesterday, less talking &
less excitement. The Doctor says that
to day & found him looking very
well in the face - I hope you
not in the same way for the first
time to day -

Yours
Macey

Love to the 1

My dear Barton
This has been but
a very independent day. The King
got up ill, dropped ill & has
continued unwell ever since
talking loud & a great deal
at different times & very freely
but I am glad to say was
a sleep when we turned out.
All agree in judging
I think is necessary to be
deposed —
Griffin

intended

Lady Anne's marriage with
Phosper remains one of all
things and has little but

Photocopy of letter to a man
whom I have forgot
/ but who is a teacher & helps
a little man (some) or ~~some~~
~~other~~ report that came
from some to day and
was me more than
by some & others because
I believed that would take
care from the document
I read the report two
months ago - but possible
I never happened to hear
by any chance before today
I don't know what is
come to all the worlds
Only the (paper) is still all
in some

[Faint handwritten text visible on the left edge of the page]

[Faint, illegible handwriting on lined paper, possibly bleed-through from the reverse side.]
